Aero-Engines Event Series

Over the past few years, the Aero-Engines event series has seen consistent growth, becoming the market leading events for the aero engine industry.

As of this year, over 1000 delegates from the engine community now attend annually and with regional programmes for the Americas, Europe & Asia-Pacific, they have a truly global footprint.

Below are the total attendee numbers for the Aero-Engines events series since 2016, you can also see a breakdown of each event inside.
